Dear : Sir

I would like to apply for a research grant to pursue an active research in the field of Biochemical pharmacology on somok components of tobacco in respect to Smoking and Health.

I am a senior research scientist at the KGTRI, Republic of Korea and currently engaged in the study of benzo(a)-pyrene metabolism by Aryl Hydrocarbon Hydroxylase".

If there exist the possibility for mutually beneficial research goals, please kindly send me the necessary papers.

I'll be glad to furnish you with more informations.

Your consideration on this matter will be much appreciated.

Sincerely Yours,

  
Ki Hyun Park Ph.D.
